INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,000 other city, county, state and national directories, present to subscribers and the general public this, the 1960 edition of the Monterey-Pacific Grove City Directory which includes Carmel, Seaside and Del Rey Oaks.

Confidence in the continued growth of Monterey and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Monterey and vicinity to the world.

The enviable place occupied by R. L. POLK & CO.'S directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that this directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four essential departments are arranged in the following order:

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Monterey, Pacific Grove, Carmel, Seaside and Del Rey Oaks, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns for Monterey, Pacific Grove, Carmel, Seaside and Del Rey Oaks is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of the community and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Monterey, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and telephone numbers are supplied to us on canvass as shown opposite the name. There are similar sections for Pacific Grove, Carmel, Seaside and Del Rey Oaks.

IV. THE NUMERICAL TELEPHONE DIRECTORY for Monterey, Pacific Grove, Carmel, Seaside and Del Rey Oaks is the fourth major department, printed on blue paper.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Monterey and vicinity, for business men everywhere realize that the City Directory represents a community as it really is.

The Monterey Directory Library

Through the courtesy of the publishers of the Monterey, Pacific Grove, Carmel and Seaside Directory, a Directory Library is maintained in the offices of the Monterey Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the directory as an advertising medium, with assurance that it will bring a commensurate return.

Employment dependent upon tourist trade is seasonal with peaks between months of May and October. Office and retail sales positions for women are normally in fair abundance.

GENERAL REVIEW

Most of the early day charm of California's first capital (from 1776 to end of 1849) under the Spanish and later under the Mexican flag is retained in the historic buildings and homes of the old town. Monterey's numerous residential districts provide beautiful natural settings for homes and gardens of people from all parts of the world who come here to take advantage of the mild climate and the warm hospitality of "Old Monterey." Here the first Constitution of the State was written at Colton Hall. Monterey became the capital of California in the same year that Philadelphia became the capital of the Atlantic colonies. The port of Monterey was named in 1602 by Sebastian Viscanio—18 years before the Pilgrims landed at Plymouth Rock.

In 1770 Father Serra founded the San Carlos Mission which he later moved to Carmel. The San Carlos church is still in use and contains the vestments of Father Serra while his body is interred in the Carmel Mission.

Started by Mexico in 1827 and completed in 1846, the Custom House has flown the flag of two nations from its flagpole. Here Commodore Sloat first raised the stars and stripes when the United States formally took California in July 1846. It is the oldest governmental building in California and is now owned by the State of California as a historical monument and is maintained by the Parks Commission as a historical museum.

Monterey is rich in historic lore and tradition and many fine old buildings, some of them the inspiration for the Monterey type homes which are now popular in many parts of the world, have been faithfully preserved and have proven a source of inspiration and pleasure to visitors and residents alike.

Aside from recreation, which amounts to industry in this region, commercial fishing is still an important part of Monterey. At one time Monterey Harbor was a center of the sardine fishing and canning of the West Coast. The fishing industry began in 1904 when F. E. Booth established the first cannery for processing the sardines in Monterey. Later it had developed into a million dollar industry with a $20,000,000 canning and processing plant in the Cannery Row in Monterey and some sixty purse sein type fishing vessels, valued at approximately $6,000,000 at the Monterey Harbor. After the disappearance of sardines in 1950 and 1951 the purse seiners went for their catches all the way from Alaska to the Gulf of Mexico and into the South American waters. Since the 1949-50 season, when the dollar turnover was $22,143,142.0C, one of the highest in the history of Monterey, the canning has been diminishing until at the present time most of the canneries have been closed down, dismantled and converted to other types of industry.

Artists were on the Monterey Peninsula when Robert Louis Stevenson came in 1879. They have lived and worked here ever since, and with good reason. The place has been a haven for them. They can work out of doors every month of the year. It's so insistently beautiful they never become unaware of that beauty. Land and sea have never met more spectacularly than at the Monterey Peninsula and color is brilliant under sun and intense when muted by fog. Living can be simple and fairly inexpensive and the atmosphere is conducive to creative thought.

The first newspaper was born in California—at Monterey, August 15, 1846, although it was printed on material "used to envelop the tobacco of the cigar smoked here by the natives." The editor and founder was Rev. Walter Colton, chaplain on Commodore Stockton's frigate Congress.

The presidio of Monterey was founded by the Spaniards in 1770 and for many years was the headquarters of the 11th U. S. Cavalry. At present it is the U. S. Army Language School where 2,000 students are taking specialized work in 28 foreign languages.

Fort Ord, six miles north of Monterey, is one of the west's largest Army training installations.

The U. S. Naval Postgraduate School, located in the former Hotel Del Monte, is composed of the General Line School and the Engineering School and has about 1,100 officer students.

Public Library—1 with 43,000 volumes.

Hotels—2; Motels, 17; Trailer Parks, 1; Convention facilities. Asilomar State Park Conference Grounds.

Amusements—1 movie theater, concert series and other musical and cultural attractions. A Butterfly Park and Museum of Natural History, open all year, gives interesting background to the phenomena of the yearly Butterfly migration.

Recreation—Safe, sandy beaches, city owned swimming pool, several city parks, with picnic facilities, 18 hole municipal golf course, tennis courts, horseback riding, deep sea fishing, glass bottom boats and marine gardens (open in summer only), and a youth center.

Transportation—Local bus connection to Monterey, Seaside, and Carmel. Southern Pacific Railway and Greyhound bus lines. Convenient connections to Monterey Peninsula Airport (Southwest Airway and United Air Lines).

Museum—An excellent museum of Natural History with emphasis on sea life in the area.

GENERAL REVIEW

Pacific Grove, city of homes and home-loving people, lies adjacent to Monterey toward the northern tip of the Monterey Peninsula. Founded as a religious retreat, in 1869, the town has grown into a prosperous and beautiful city. In 1879 the second Chautauqua in the United States was founded here.

The motorist will find attractions in Pacific Grove to make this stay one of pleasure.

For the Tourist

The tourist will find plenty of things to do and see here—Wonderful

Marine Gardens to explore in glass bottom boats. Boating and bathing enjoyed under safest conditions. Experience the thrill of angling for gamest of fish.

Municipally Owned

Eighteen-hole golf course, in charge of expert professional.

A number of tennis courts, roque court and horse-shoe pitching.

Heated salt-water plunge. Spring boards and life guard.

Softball field, with grandstand seating 500.

A number of supervised children's playgrounds.

Senior Citizen Club at Jewell Park.

Three miles of beautiful planted coast line with parking areas.

The greatest number of public parks of any city of its size in the state.

A $40,000 Natural History Museum, one of the most complete of its kind. Its exhibits are visited by leading scientists from everywhere.

Butterfly Festival

The City welcomes annually the visit of the Monarch Butterflies. They come from as far north as the Canadian Rockies in late October and leave in March, and have been doing so since time immemorial.

The school children welcome the butterflies each year in a very colorful parade.

Pacific Grove Has Unique Personality

Pacific Grove is one of the most all-American cities in California. In its people, it is almost a bit of New England transplanted to the California coast. That is reflected in its many churches, customs, homes, personality, great voting capacity in elections, public interest in public affairs. Its people are almost entirely American for several generations past, and here they have built a beautiful city of homes where lawlessness of any sort is practically unknown. It is a city of well-kept gardens and flower lovers.

The beaches and rocks along this part of the coast offer wonderfully engaging games of "finding things" at low tide. It is natural, therefore, that at Pacific Grove has been located the Hopkins Marine Biological Laboratory branch of Stanford University where intensive study of biology is carried on under the direction of a faculty of illustrious scientists.

The most beautiful vistas on the scenic Seventeen-Mile Drive are found on the sightseeing trip from Pacific Grove around the Drive and through Pebble Beach to Carmel.

There are many entrancing walks and bridle paths to be found in the pines behind the town.

Here are unequalled motor roads leading to wonderful drives and to a hundred and one natural points of interest.

Fort Ord, a large military camp, is but twelve miles from Pacific Grove.

Follow the butterflies to Pacific Grove, Butterfly Town California, U. S. A.

CARMEL

(Courtesy City Clerk)

STATISTICAL REVIEW

Location—Situated on the Bay of Carmel in the southern bend of the Monterey Peninsula. On California Highway No. 1, it is 128 driving miles to San Francisco and 340 miles to Los Angeles.

Date of Founding—1770, Carmel Mission established by Father Junipero Serra. In the early 1900's the village of Carmel began its growth around a brilliant group of young artists and writers.

Date of Incorporation—October 31, 1916.

Form of Government—City Council.

Population—Carmel incorporated 4,549.

Area—Seven-eighths square mile, or 560 acres.

Assessed Valuation—$12,852,270 (Carmel incorporated).

Tax Rate—$1.17 per $100.00 assessed valuation (inclusive of county taxes, schools bonds, etc.).

Post Office Receipts—1955, $168,949.00; 1956, $184,661.00.

Building and Construction—1955, 143 permits, (Carmel incorporated) value, $1,201,737.00. 1956, 155 permits (Carmel incorporated) value $1,042,925.00.

Banks—3.

Churches—5.

Motels—43, also numerous guest houses with comfortable, but limited accommodations.

Hotels—4, three with dining rooms. Both European and American plan.

Transportation—Carmel is served directly from Monterey by the local Bay Rapid Transit Company. It is within ten to twenty minutes service to Southern Pacific Railroad, Southwest Airways, United Air Lines and Pacific Greyhound Bus Lines. Located on the scenic Highway No. 1, it is convenient by highway to both Los Angeles and San Francisco.

Recreation and Amusements—Situated on a beautiful mile long curve of beach makes beach life a major recreation. Excellent golf courses nearby, tennis, sailing, horseback riding, and bicycling are among outdoor sports enjoyed. Culturally the town is active in music, art and the theatre, with topnotch guest artists presented by the Carmel Music Society, the fine Monterey County Symphony Association, the Annual Bach Festival, smaller groups of Chamber Music and jazz concerts. One movie theatre, one theatre-in-the-round, and a number of little theatre groups provide excellent theatrical productions. Arts and Crafts galleries, the well known Carmel Art Association and private galleries are at hand for art lovers.

Hospitals—1, a few rest homes.

Schools—3 public elementary, 1 public high school, 1 parochial elementary school, 2 private schools and several private nurseries.

Library—1, with 36,366 volumes.

Newspapers—1 weekly.

Climate—Mean average temperature of 55 F, average annual rainfall of 15 inches.

Industry—None. Trade directed primarily toward tourists.

Agriculture—Nearby Carmel Valley under cultivation to small extent mainly in artichokes and strawberries.

GENERAL REVIEW

When the famous Spanish explorer, Don Sebastion Vizcanio, sailed into the nearby harbor of Monterey in the year 1602, there were two Carmelite Friars aboard ship. They asked permission to name the region to the south of Monterey for the order to which they belonged. Thus, Carmel was named, but it was not until the year 1770 that Mission San Carlos Borromeo was constructed, and the famed Mission still stands and is in active use. Here are the burial places of Father Junipero Serra and Father Lasuen.

The city of Carmel-by-the-Sea, is an unusual setting of scenic beauty, has a distinctive and picturesque charm. An informal, individualistic community, it is situated on the pine and oak wooded slopes rising fanwise from Carmel Bay and the mile-long beach of white sand. The beach has been kept free of commercial enterprises, and the delightful small business section begins about ½ mile from the beach. There are zoning restrictions against most industrial activities, and the small shops of English, Spanish and fairytale architecture deal in staple and luxury goods, handicraft, gift and art merchandise.

The population of Carmel is cosmopolitan with many world-famous artists, writers, poets, actors and retired military personnel residing in the lovely residential sections. There are excellent schools, library, hospital, art gallery and theatres.

GENERAL REVIEW

Joining the east limits of Monterey is Seaside, California.

The area was founded by Dr. L. D. Roberts, who developed it from grazing land for cattle into a thriving community of 18,000 persons. Dr. Roberts was a county supervisor for more than 20 years and was also largely responsible for the construction of the famous Coast Road between Carmel and San Simeon. He also aided in negotiations for the government purchase of Fort Ord Reservation which borders Seaside on the North and East.

Seaside withdrew from the Fire District about 2 years ago and formed their own Fire Department. This department is also under contract with the unincorporated areas to the east and west of the City for fire protection. Seaside has a general plan and an established building code, compulsory garbage disposal system and is also operating the Seaside Disposal District with a modern disposal plant. The Schools are operated under the Monterey elementary and high school districts. At the present time there are 6 grade schools and one junior high school, but a new elementary, junior high and high school are budgeted and will be completed within the next two years. At the present time there is an urban redevelopment program underway covering 22 acres of the city. This project is in one of its final stages, with older homes being removed to make way for new ones with curbs, gutters and sidewalks. Another urban redevelopment project has been approved covering more than 200 acres. The planning is well underway and Government approval has been obtained. The growth of the city is shown in the following table: 1930--800, 1940--2,500, 1950--10,226, 1958--21,750 (included unincorporated area); 1960--19,137 (does not include unincorporated area). The 200 acre redevelopment area is expected to become a part of the city within the next year, with more than 1,000 homes being built in that area and an estimated 3,000 persons.

Seaside has the area for a large potential growth and projections show it can become a city of some 45,000 people by 1970. The area which had originally been designated as industrial, has become a separate city known as Sand City, so the potential growth of industry within the City of Seaside has been curtailed, at least temporarily.

The city is located on Route 1, a main highway and is serviced by all major truck lines, the Southern Pacific Railroad and Greyhound Bus Lines.

This area is only a few minutes drive from the myriad of recreational facilities on the Monterey Peninsula, including Carmel, Pebble Beach, Carmel Valley and the Big Sur.

Living within its borders are thousands of Army and Navy personnel who are stationed at Fort Ord and at the Navy General Line School and Army Language School.

It has a new, modern theatre and many modern buildings, active service clubs and is considered the fastest growing city in Monterey County. Projections show at present rate of growth, Seaside will be a city of nearly 50,000 within the next 10 years.

★

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

A STATEMENT

OF

ADVERTISING PRINCIPLES

1. **GOOD ADVERTISING—aims to inform the consumer and help him to buy more intelligently.**

2. **GOOD ADVERTISING—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.**

3. **GOOD ADVERTISING—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.**

4. **GOOD ADVERTISING—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.**

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1960

Copyright, 1961, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1960

Copyright, 1961, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the
35 information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1960

INCLUDING DEL REY OAKS

Copyright, 1961, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no significance.)

41 (This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
